

C92 Linton on Ouse to Newton on Ouse fully reopens

Further to my update dated 29 January 2013 I can advise that the C92 Linton on Ouse to Newton on Ouse road has fully re-opened to traffic this week. The final elements of the work which included reinstatement of the fencing and hedge as well as planting and top soiling have now been completed and the temporary traffic lights have been removed.

We are conscious that there have been a number of enquiries regarding the road conditions along the diversion route and now that the C92 has fully reopened we are now able to carry out more substantive repairs to the diversion route, as the traffic flows along this route have reduced significantly due to the C92 being open to two way traffic. We are currently finalising the details of these works and will be able to provide you with a further update next week.

I hope this information is helpful however if you require anything further, please do not hesitate to contact me.

Yours sincerely
Nigel Smith
Area Manager
